Dear Dom

Thank you for raising Outdoors Queensland's major policies priorities with the LNP ahead of the 2024 state election.

Queenslanders will be asking themselves at this election whether their lives are better or worse after almost a decade under Labor and who has the right priorities for Queensland's future.

This election is Queensland's chance for a fresh start.

With respect to the issues you have raised, I can advise the following:

Actively Support Outdoor Recreation

The LNP values conservation through education, and by opening up more of Queensland's environment to enjoy, we will grow the passion of Queenslanders to protect our iconic natural estate. Queensland's environment belongs to all, and should be open for all to enjoy. The LNP will work with communities and stakeholders to further ecotourism and outdoor recreation.

Protect Nature

The LNP will continue existing funding to expand Queensland's national parks and protected areas. With that growth must be increased management and the LNP has announced 150 new rangers across the next four years, for both Queensland Parks and Wildlife Service and Indigenous Land and Sea Rangers.

Included in this commitment is 30 rangers in a specialist fire strike force strategically positioned around the state to respond quickly to outbreaks, and work to reduce fuel loads.

This is a \$56 million investment in the management of our parks to ensure their

protection for the future.

In conclusion, after a decade of Labor, Queensland is heading in the wrong direction on the key issues of Youth Crime, Health, Cost of living and Housing.

Our State needs a Fresh Start and the LNP has The Right Plan for Queensland's Future, which includes:

- Safety where you live – through stronger laws like Adult Crime, Adult Time and gold standard early intervention
- Health services when you need them – by axing Labor's Patients' Tax, a tax which doctors have said will end bulk billing and make GP visits more expensive
- Respect for your money – by stopping Labor's expensive budget blowouts which are pushing up costs for families
- A place to call home – by abolishing stamp duty on new builds for first home buyers
- A government that works for you – to address challenges for the long term, not band-aid solutions at election time

See more of our plan and keep up to date on recent announcements at rightplanqld.com.au.

Thank you for the opportunity to respond to Outdoors Queensland's priorities and we look forward to future engagement about these matters.

Yours sincerely

Ben Riley

State Director
