03 July 2024

Dear Dom

Thank you for providing One Nation with your 2024 State Election Position Statement.

While One Nation supports the merits of outdoor activities that provide Queenslanders and visitors to our state the opportunity to learn, heal, play, and live - your organisation presents as a radical environmental activist group.

One Nation will not support demands by your organisation to fast-track new and costly renewable projects that destroy the very land you claim to want to protect.

We have no interest in legislating unrealistic carbon dioxide reduction targets, nor the banning of new coal or gas projects that help fund the very organisation you represent.

One Nation also rejects your support of the Nature Positive Plan that seeks to increase further restrictions to 30% of our nation's land and waters.

Parasitic activist organisations like yours should be defunded, not embraced. Your motivations are misguided and we want no part of them.

Kind regards

James Ashby
One Nation Chief of Staff
